EXPERIENCE

Fullstack Developer

June 2024 – Present

Brainstorm Force

Pune, MH

- Built a multi-tenant SaaS platform end-to-end across Next.js 15(SureFeedback) and Laravel — schema design, REST endpoints, scheduled jobs, and 50+ reusable UI components shared across products.
- RAG retrieval, prompt tuning, multi-source ingestion, and an embeddable widget with persistent chat threading.
- GitHub (OAuth + 2-way issue sync + webhooks), Jira (auth, issue creation, attachments, 2-way sync), Slack (real-time notifications), FreeScout, and Zapier
- Integrated RESTful APIs with robust error handling, optimistic UI updates, and JWT-based authentication with auto-refresh flows; implemented OAuth2 systems for seamless plugin connectivity.
- Conduct security audits, implement vulnerability fixes, and optimize plugin performance through code reviews, caching strategies, and best practices compliance (PHPCS, WordPress Coding Standards).
- Provide technical support by troubleshooting user issues, maintaining high user satisfaction; create technical documentation, process guides, and onboarding materials for team and end-users.

Web Developer
